CHICAGO—Unemployment rates increased in a majority of the metro areas – as did the number of people entering the workforce – indicating many individuals did not find employment, according to preliminary data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (IDES).

“Though more people in Illinois entered the labor force, they were not able to find jobs,” said IDES Director Jeff Mays. “With Illinois trailing the rest of the country in job creation, we need structural reforms to get more people back to work.”

The unemployment rate increased in 13 metro areas and declined in one. Illinois businesses added jobs in nine metros, in which the largest increases were seen in: Rockford (+2.5 percent, +3,700), Lake-Kenosha (+2.1 percent, +8,200), and Carbondale-Marion (+1.8, +1,000). Total nonfarm jobs in the Chicago-Naperville-Arlington Heights Metro Division increased (+1.5 percent or +53,100). Illinois businesses lost jobs in four metro areas including Bloomington (-1.2 percent, -1,100), Danville (-1.0 percent, -300), and the Quad Cities (-0.9 percent, -1,700). The industry sectors recording job growth in the majority of metros

were: Retail (13 of 14), Mining and Construction (10 of 14), Education and Health Services (10 of 14), Leisure and Hospitality (nine of 14), Government (nine of 14), Professional and Business Services (eight of 14) and Other Services (eight of 14).

Not seasonally adjusted data compares January 2016 with January 2015. The not seasonally adjusted Illinois rate was 7.1 percent in January 2016 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Nationally, the not seasonally adjusted unemployment rate was 5.3 percent in January and 10.6 percent in January 2010 at its peak. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits.

Note:

Monthly 2015 unemployment rates and total nonfarm jobs for Illinois metro areas were revised in February 2016, as required by the U.S. Dept. of Labor, Bureau of Labor Statistics (BLS). Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.

Central Illinois Highlights

Help Wanted

Area employers advertised for 6,800 positions in January and approximately 85 percent sought full-time employment, according to Help Wanted OnLine data compiled by the Conference Board, which is a global, independent business membership and research association. Employers actually need more workers than the help wanted advertising indicates because some industries, such as Construction, typically do not post advertised job openings.

Decatur MSA

The January 2016 not seasonally adjusted unemployment rate increased to 8.7 percent from 7.8 percent in January 2015. There were an estimated 4,400 unemployed people in the labor force in January 2016.

The total number of nonfarm jobs in the Decatur metro area was unchanged compared to one year ago, holding steady at 50,000. Payrolls increased in Educational and Health Services (+400), Leisure and Hospitality (+200), Professional and Business Services (+100), Government (+100), and Retail Trade (+100). Declines were reported in Construction (-300), Transportation, Warehousing, and Utilities (-200), Manufacturing (-200), Other Services (-100), and Financial Activities (-100). All other major industry sectors were unchanged compared to one year ago.

Springfield MSA

The unemployment rate increased to 6.6 percent in January 2016 from 5.9 percent in January 2015. There were an estimated 7,400 unemployed people in the labor force in January 2016. The rate remains below the comparable state rate of 7.1 percent. The data is not seasonally adjusted.

The Springfield metro area nonfarm job total increased by (+1,000) compared to a year ago. Payroll increases were reported in Professional and Business Services (+1,000), Leisure and Hospitality (+300), Wholesale Trade (+200), and Construction (+100). Declines were reported in Financial Activities (-200), Educational and Health Services (-200), Government (-100), and Manufacturing (-100). All other major industry sectors were little changed compared to last year.
